ABOUT IRAN

➤ Iran, the Untapped Market

Iran is the 17th largest country in the world in terms of area at 1,648 (1000 sq. km). It is a country of particular geostrategic significance owing to its location in the Middle East and central Eurasia. Iran is the homeland to more than 80 million people, the second largest population in the MENA region after Egypt. 1/3rd of this population is between 15 to 30 years old and the growth rate is 1.14 (2017).

➤ Economy

Iran's economy can be named "The Last Untapped Emerging Economy" with numerous investment opportunities as it is the second largest economy in the Middle East and North Africa (MENA) after Saudi Arabia, with an estimated GDP of 438.3 billion USD in 2017. However, Iran has experienced severe sanctions and these sanctions have weakened Iran's economy at least twenty percent. Before sanctions (2007-2008), Iran's GDP growth rate was 7.8 percent. Iran is currently welcoming foreign investors and has set many rules and regulations to support foreign investments by the help of Organization for Investment Economic and Technical Assistance of Iran (OIETAI). Iran is a founding member of the GECCF, IEF and OPEC; and a member of ECO, IMF, NAM, OIC and the UN.

➤ Annual Income

Iran is placed in the second level (Upper middle = \$4,126 – \$12,745) of Gross national income (GNI) ranking according to World Bank estimates of 2013 GNI per capita. Iran GNI PPP (Purchasing Power Parity) is 21,010 USD per capita (2017)

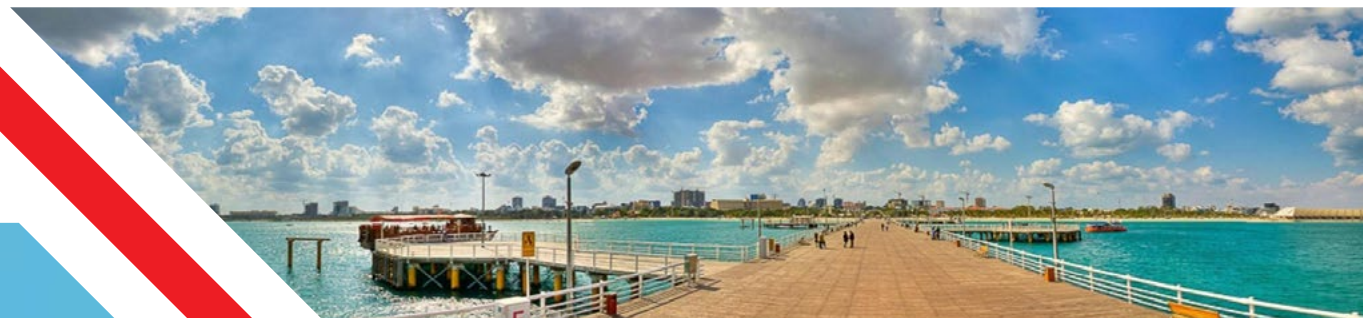

➤ Natural Resources

Iran ranks as the 2nd in the world in natural gas reserves and 4th in proven crude oil reserves. Almost the most important industry of Iran is its "Petroleum Industry" and "Fossil-Fuel-Resources". The main oil and gas fields of Iran are located in South Western region of the country. Iran has very important mining fields, differing from precious stones to coal and cement, Turquoise stone, Gold, Cement, Lead, Coal, Zinc. As of 2010, Iran's crude oil and natural gas liquids production ranked fourth in the world. It is said to have 15.8% of the world's proven natural gas reserves and 9.9% of world's proven oil reserves. Production statistics of mineral commodities in 2015 are provided below:

- Gypsum and pumice - 9% of the world's total production
- Feldspar - 5.3%
- Barite - 4%
- Sulfur - 3%
- Molybdenum - 2%
- Nitrogen - 2%
- Cement, iron ore, and silica sand - more than 1%.

KISH ISLAND

All these reasons have provided a perfect place for KishINVEX® event to be taken place. Kish Island has been the host to KishINVEX® for 5 years. Based on all the data and feedbacks during all these years, there could be no place better than Kish, away from the hustles and bustles of the capital.

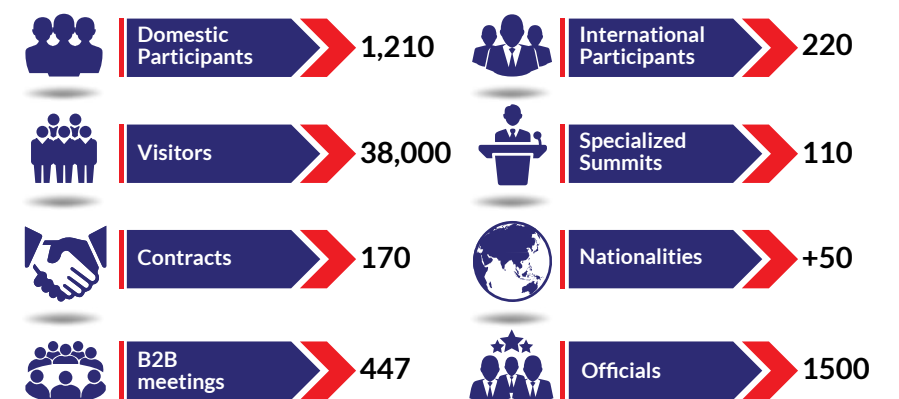

➤ Story of KishINVEX®

The first KishINVEX® was held in 2014, when we had depicted long-term goals in the Kish Free Zone, with the cooperation of sophisticated international advisors to present investment opportunities of a unique and great emerging market, called Iran. Our strategy was not only to create a convenient environment for exhibitors and visitors to meet with the decision makers and authorities of Iran financial market and industries but also to focus on content to help our participants keep up with latest trends and changes which is happening worldwide with holding different educational workshops and summits on Iran Capital Market.

Since 2014, KishINVEX® has tried to present an enhanced image of Iran's capabilities and potentials in international scales and pave the roads to present a proper picture of how to invest in Iran. As the biggest economic event of Iran in the private sector, KishINVEX® has gathered the pioneers of Iran's economy from different sectors; Exchange, Banking, Insurance, Energy, Construction & Infrastructure, Transportation, Logistics, Tourism, KBOs and Iran's Free Trade, Industrial and Special Economic Zones. KishINVEX® has provided this platform to facilitate and utilize investment in projects and reach its main goal which is the economic development of Iran.
